Mohd Aadil Siddiqui

I am actively seeking a thrilling and dynamic opportunity to apply my skills and experience, driving impactful results. I am enthusiastic about joining an organization that champions innovation, continuous learning, and personal growth.

Experience

Full Stack Developer Intern at WFH Technosoft (6-month internship): Jan-2025 -- Present

Contributing to both backend and frontend development of web applications.

- Backend: Using PHP and MySQL for server-side logic and database management.
- Frontend: Designing responsive user interfaces with HTML, CSS, JavaScript, and Bootstrap.

Projects

MY OWN PORTFOLIO

Design and develop my portfolio to effectively showcase my top projects and highlight my expertise in different skills.

NEW SMILE CLINIC – WEBSITE & ADMIN PANEL

Role: Full Stack Developer
Technologies: PHP, MySQL, Bootstrap, jQuery, JavaScript, SwiperJS, FullCalendar.js
Designed and developed the complete website and admin panel for New Smile Clinic, a dental clinic based in Antwerpen, Belgium.

- Built a responsive, user-friendly frontend using Bootstrap, SwiperJS for carousels, and FullCalendar.js for appointment scheduling.
- Developed a custom admin panel for clinic staff to manage appointments, patients, and schedules.
- Implemented dynamic backend functionalities with PHP and MySQL, including data management, form handling, and user authentication.
- Integrated jQuery for smooth client-side interactivity and real-time updates.
